Maxim Gorky's lung trouble is increasing the anxiety of his friends. The doctors declare that his transfer from Riga to South Russia is absolutely essential to his recovery.

Duke Did Not Leave Incognition.

St. Petersburg, March 28.—The report published abroad that Grand Duke Alexis had fled from Russia incognito is untrue. He has not left St. Petersburg.

As showing the faith existing in remote sections of Russia that the imperial rescript of Dec. 25 assures the establishment of a parliament, petetions are already being received addressed to the "National Assembly," and last week the parents of school children at Ekatorinslav, South Russia, met and adopted formal resolutions for submission to the parliament asking for the enactment of laws giving the public a share in the administration of schools and the free admisions of children without regard to rank or religion, etc.

French Watching Russian Refugees.

Paris, March 28.—The police are exercising extensive surveillance over Russian refugees in Paris owing to reports that they are organizing to assist the revolutionary movement in Russia. It is claimed that much compromising correspondence has been seized, but the refugees asserts that it is principally matter connected with the student agitation. Continued rumors that Father Gapon is hiding about Paris are afloat.

Hears Nothing of Peace Rumors.

London, March 28.—In the house of commons today Swift-McNeil (Irish Nationalist) tried to elicit information regarding the peace negotiations. He questioned Premier Balfour if he could make any statement on the subject, but as no previous notice had been given of the question, the premier took no notice of it.

Britisher Attacked by a Moor.

Tangier, Morocco, March 28.—Walter B. Harris, the correspondent of a London newspaper, was attacked by a native, while in the British postoffice today. His assailant, a Moorish hotel guide, suddenly rushed upon him with a knife, which, however, struck the ring of Mr. Harris' watch and only slightly wounded him in the stomach. Mr. Harris says he is not aware of any reason for the attack.

Girl Dies Aboard Train.

Childersburg, Ala., March 28.—Miss Florence Harding, of Perry, Ga., accompanied by her father and mother, en route to Kansas City, died in a sleeper attached to train No. 3 on the Central of Georgia road. Tuberculosis was assigned as the cause of death at Birmingham. The remains will be taken to Kansas City, Kans.

BOMB THROWER AT WARSAW.

Chief of Police and Six Policemen Are Badly Wounded.

Warsaw, Russian Poland, March 27—2 p. m.—Baron Van Nolken, chief of police at Warsaw, who was injured by the explosion of a bomb yesterday, owes his life to the bad aim of his assailant who threw the bomb behind instead of underneath the carriage.

The body of Von Nolken is full of innumerable splinters of the bomb. His assailant has not yet been arrested.

The men who previously threw a bomb into the police station at Praga, a suburb of Warsaw, injuring six policemen, is believed to be dying. He was injured by a fragment of the bomb as well as by bullets fired at him by the police. He refuses to reveal his identity, but declares himself to be a Socialist.

The greatest excitement prevails throughout this city.

Riots at Yalta, Crimea.

Yalta, Crimea, March 28.—The situation here is becoming worse. Rioters have destroyed nearly all the warehouses and vodka shops and the police station and a number of shops have been set on fire. Troops are guarding the postoffice and treasury buildings. The arrival of reinforcements of soldiers is expected momentarily.

WOMEN TO ORGANIZE UNIONS.

Seven Hundred Women Pledge Fealty To the New Movement.

New York, March 28.—Raising their hands at a sign of fealty to the cause, seven hundred women have pledged themselves at a conference of the women's trade union league, to help organize all the women wage earners of this country into trades unions.

Samuel Gompers, president of the American Federation of Labor, and Miss Jane Adams, of Hull House, Chicago, addressed this meeting.

Miss May McDowell, of Chicago, explained the conditions of the girl's working at the stock yards and elsewhere in Chicago, pointing out that organization was doing a great deal there toward removing petty spites and class feeling among the working girls.

The meeting was the public part of the first national convention of the woman's trade union league.

Mrs. Ellen M. Henrotin, of Chicago, was chosen president. Besides representatives of the working women there were present many persons well known in society and a number of settlement workers who pledged themselves to help along the cause.

$1,000,000 Lumber Deal Closed.

San Francisco, March 28.—A big lumber deal involving the transfer of $1,000,000 is reported closed here. The property changing hands is that of the Weed Lumber company, consisting of large tracts of lumber land in northern California, with improved mills and 24 miles of railroad running out of Weed station toward the Klamath river district to which its owners contemplate making an extension. The purchasers are R. A. Long, of Kansas City, and several business associates in that place, among them W. F. Ryder, W. R. Hazen and C. B. Sweet and a number of California persons including George E. Ebbinger, of Los Angeles and George X. Windling, of this city.

Tennessee Railroad Changes Hands.

Knoxville, Tenn., March 28.—A special to the Sentinel from Bristol, Tenn., says that a rumor is current in Bristol based upon responsible information that the W. M. Ritter Lumber company, of Cleveland, O., and Isaac T. Mann, a multi-millionaire of Bramwell, W. Va., have purchased the South and western railway, owned by the George L. Carter syndicate. It is stated that $2,500,000 has already been advanced as purchase money. Mr. Ritter was in Bristol last week.

FOUR PEOPLE KILLED IN RAILROAD WRECK

Runaway Cars Crash Into Train On the Main Line.

ENGINEER AND FIREMAN KILLED

It Is Thought by Railroad Men that the Switch Had Been Maliciously Thrown for the Purpose of Wrecking a Fast Passenger Train!

Nashville, Tenn., March 28.—A dispatch from Clarksville, Tenn., says a wreck on the Louisville and Nashville railroad in which four lives were lost and much valuable railroad property destroyed, occurred just across the river from that place at 12:45 this morning. A string of freight cars running wild crashed into a freight train going in an opposite direction. No one was on the wild cars.

The dead are:

John Murray, engineer, of Bowling Green, Ky.

Pat Fox, fireman, of Nashville, Tenn.

Two negroes, names unknown, who were stealing rides.

A stick of wood 18 inches long was driven through Fireman Fox's body.

The locomotive and ten loaded cars were totally wrecked.

It is thought by railroad men that the switch had been maliciously thrown for the purpose of wrecking a fast passenger train.

CRUISER RETURNS FOR REPAIR.

The Charleston Puts Back Into Port After a Few Days at Sea.

Norfolk, Va. March 28.—The United States cruiser Galveston, which sailed from the Norfolk navy yard for Galveston, Tex., last Thursday on her maiden voyage for the purpose of "shaking down" her machinery, turned over to the navy yard today having put in to the Virginia capes yesterday.

The cruiser's return, it was said, at the office of Rear Admiral Harington, commanding this naval station, was for repairs to her machinery, which had a slight break when the vessel had gotten some 300 or 400 miles down the coast. It was further stated that the necessary repairs would be ready to proceed south again within a few days.

It was positively stated at the admiralty office that the damages to the Galveston is in now way serious.

RETURNS AFTER FOUR YEARS.

Young Man Comes Back Home But Makes No Explanation.

Chicago, March 28.—Frank Ely Rodgers, who turned suddenly to Evanston yesterday, four years after the mysterious disappearance of himself and his aunt, Miss Florence Ely, from the home of Charles Rogers, the lad's uncle, maintained silence today as to his whereabouts, and doings, since leaving his uncle's Evanston home in July, 1901. The boy is said by his father, James C. Rogers, to have denied being with Miss Ely and to have denied seeing her since leaving home.

"I have nothing more from Frank," said Mr. Rogers today. "He has been in Pittsburg, and I think in other eastern cities. I am not going to bother him with questions, and when he gets ready to tell me all he wants to say I will listen."

Twenty-Eight Convicts Escape.

Houston, Tex., March 28.—Twenty-eight Texas convicts on the plantation of J. H. B. House, of Houston, located in Fort Bend county, have escaped by sawing through the floor of stockade with case-knives. Forty-five convicts refused to accompany the fugitives. Posses are scouring the river bottoms in an effort to apprehend the runaways.

Indian Caught Passing the Queer.

Montgomery, Ala., March 28.—The police have arrested Mark Longsite alias Long High, a full blooded Indian on the charge of passing counterfeit money. The accused says he lives in the Indian Territory. The money is in half dollars and the coin is said to have been passed on a negro near Shorter.

LEAVE CIVIC FEDERATION.

Labor Unions Advised to Withdraw from that Body.

New York, March 28.—At a meeting of the Central Federated Union a resolution has been adopted calling on every union to withdraw from the civic federation. It was further resolved to call a mass meeting and agitate against giving private corporations any more franchises for subways.

The adoption of these resolutions followed the reception of the report from a committee sent by the central federation to confer last week with President Belmont of the Interborough Rapid Transit company regarding re-employment of men who lost their jobs as the result of the recent strike.

This report showed that President Belmont declined to make any concessions, saying that the road was equipped with all the men needed and that the former employes could only be re-employed when vacancies ocurred. Recognition of any union also was refused. When the delegates representing more than 150,000 workers heard the report pandemonium reigned. Delegates arose and shouted at the top of their lungs against Mr. Belmont. Attack after attack was made against the Civic Federation, while some of the delegates loudly demanded that every labor leader should resign from that body.

Samuel Gompers, president of the American Federation of Labor, who is vice president of the National Civic Federation, was also denounced.

YOUTH SHOOTS SWEETHEART.

Dangerously Wounds Girl With Whom He Was Desperately In Love.

New York, March 28.—A search is being made about Coronna, L. I., for William Smith, 17 years old, who shot and dangerously wounded his sweetheart, Alice Ohlsen, 16 years old, Saturday night. The love-sick lad's father fears he has committed suicide, but thus far there is no evidence of his having done so.

Miss Ohlsen's father is a Swedish clergyman, the author of several religious works.

Although young Smith had just left the Grammar school to work in a New York store, he began a vigorous courtship. The Ohlsens endeavored to break the boy's infatuation by refusing to admit him to the house, but he lay in wait Saturday evening and as Alice was starting for a walk with her mother, he fired a shot at the girl. The bullet struck her in the breast and the boy fled.

Miss Ohlsen was taken to a hospital, where, it is said, she will probably recover, although badly wounded.

GIRL PREVENTS JAIL DELIVERY.

Sheriff Daughter Proves Herself a Heroine by Preventing Escape.

Scottsboro, Ala., March 28.—A daring attempt at a jail delivery was frustrated here by Miss Lula Austin, the young daughter of Sheriff D. O Austin.

After three of the steel bars leading into the main corridor, which would have practically admitted them to their liberty, had been cut, Miss Austin discovered the condition of affairs and herself forced the prisoners to turn over to her the saws which had been used in the operation, six in number.

Since the incident, no visitors have been allowed by the sheriff to see the prisoners, it being supposed that the men were supplied with the tools by some one who had been admitted to their cells.

Hobson to Run for Governor.

Mobile, Ala., March 28.—Captain Richmond Pearson Hobson, who was in this city today, submitted to an interview in which he declined to either affirm or deny whether he will be a candidate for governor or not at the next state election, but said: "I shall be in the political campaign, but at the present stage, it is impossible to say whether I shall be a candidate myself or not, and my action will be decided according to the opportunities for rendering public service.

"Whether I am a candidate or not, I expect to take the stump and advocate strong foreign and naval policies as the basis of our security and prosperity, and a march toward general peace."

KENTUCKIANS ARE HELD WITHOUT BAIL

Judge Hargis and Others Are Indicted For Murder.

ALL PROMINENT IN POLITICS.

Men Must Face a Jury on a Serious Charge—Case One of the Most Famous in History and Is Attracting Widespread Attention.

Lexington, Ky., March 28.—Judge James Hargis, his nephew Elbert Hargis and Sheriff Ed Callahan, of Breathitt county, were today held without bail on charges of complicity in the feud murder of James Cockrell, in Jackson, Ky., three years ago, while Senator Alex Hargis, arrested in the same connection, was released on $15,000 bail.

The decision was announced today by Judge Parker, of the Fayette county court who heard testimony last week on the question of bail and the trial of the case will be held at the present term of court. Cockrill was shot and killed from the court house window at Jackson and Curtis Jett, who has been convicted and sentenced to death for connection with the crime, was, on Saturday, granted a new trial, while Tom White is under life sentence for complicity in the crime.

All of the men arrested in connection with the crime are prominent in Kentucky business and political circles, and few murder cases have created as much stir as has this one.

James Hargis is still judge of Breathitt county and the question arose as to who would act in his stead in the event bail was refused. Breck Combes of Breathitt was recently appointed magistrate of that county and today Judge Hargis requested him to hold the term of county court for him which will convene next week.

JUSTICE LAMAR HAS RESIGNED.

An Associate Justice of Georgia's Supreme Court Leaves the Bench.

Atlanta, March 28.—Judge Joseph R. Lamar, associate justice of the supreme court, today tendered his resignation to Governor Terrell and will retire from the bench at once.

As soon as the resignation was received by the governor he appointed Judge Joseph Henry Lumpkin, of the Fulton superior court, to succeed Judge Lamar.

Judge John T. Pendleton will be named as the successor of Judge Lumpkin.

Justice Lamar has not been in good health for some time and while he did not give any reason for resigning, this is supposed to be the cause.

Judge Lumpkin has been on the bench for about 12 years and has made a signal reputation for his decisions. His appointment to the supreme court will meet with universal approval.

Judge Pendleton was for years on the bench of the city court.

President to Leave Next Week.

Washington, March 28.—Before President Roosevelt starts on his southwestern trip next week he will issue a proclamation inviting foreign nations to participate in the exposition to be held in the summer of 1907 in the vicinity of Hampton Roads in celebration of the settlement of Jamestown, Va. This is in compliance with the request of General Fitzhugh Lee, president of the exposition company and Senator Daniel, of Virginia, who called on the president today.

$200,000 Fire in Indiana Town.

Carbon, Ind., March 28.—Fire here has totally destroyed 20 business houses and 40 residences, causing a loss of $200,000. The business section of the town is practically wiped out. The town was without fire protection and the high wind fanned the blaze until efforts to control it were futile. A special train from the town of Terre Haute, 6 miles south of here, brought a portion of the fire department from that city, which saved part of the residence section. The town has about 1,100 inhabitants.

OBJECT-LESSON WORK HAS BEEN FINISHED

Both Street and Road Work Will Prove Eminently Successful.

FLINT IS A FINE THING

For the Construction of Streets—Is Clean, Hard and Firm, and Becomes More Compact as It is Used—Clay-Sand a Fine Road Composition.

The block of object lesson street which has been under construction for the past four weeks has been completed, and it is safe to assert that it is one of the most solidly built and most durable thoroughfares in the South, vitrified brick not excepted.

The material used is the flint rock which was taken from University street two or three years ago, and which the experts say is the best material in the United States for road and street building. The street, which is seventy feet in width, is eight inches thick in center, tapering to five inches on either side, making a three-inch fall from center to either side, which is the standard grade. The big steam roller has been faithfully and constantly packing the material ever since the construction began, with the result that it is now almost as compact as a solid rock.

"You are going to find this street thoroughly satisfactory," remarked Superintendent J. H. Dodge, under the supervision of whom the practical work has been done, "and it is safe to state that it will remain here in good condition as long as the city stands, with the necessary repairs. The more it is used the more solid it becomes, and it is made of a material that the rain cannot wash away."

While the street has cost the city considerable, it has demonstrated the material to be used for solid, permanent streets, and has been a great object-lesson to the future street builders of Gainesville.

Mr. Dodge, who also supervised the construction of the mile of object-lesson road on the Paradise road, states that the work proved most satisfactory. The material used on this thoroughfare was a mixture of clay and sand, being about seventy-five per cent of the former, and will prove a most lasting material. The county by private subscription is building a mile of road to connect with this strip, which will make three miles of good road leading from North Gainesville north.

Messrs. W. S. Spoon, J. H. Dodge and W. H. Eldridge, the experts who have been in charge of the work here, expect to make their departure today for Tallahassee. Mr. Spoon, who has charge of the work, has generously offered to allow the machinery to remain here for the purpose of rebuilding University street, and an expert road builder of Jacksonville arrived last night to begin the work, which will be completed as rapidly as possible.

While here the government road men made many friends. They are clever fellows, and it is with regret that the people of Gainesville see them go. They have taught us a great deal in road-building, however, for which we shall always thank them.

COLLECTOR DICKINSON BUSY.

Tax Collector's Office Crowded With Those Who Want to Pay Taxes.

It is a strange but undeniable fact that a great many property owners will defer the payment of taxes until the last hour, with the result that at this season every year the tax collector is exceptionally busy, and is compelled on account of the rush to employ extra help. This year has been no exception, and Collector Dickinson and his force were actually so busy Tuesday that they did not have the time, to use the expression, to breathe easy. The office was crowded all during the day, and anxious property owners were in a regular jam, endeavoring to pay their taxes. Almost as bad a condition prevailed Monday.

Collector Dickinson has warned the property owners from time to time that there would be a rush at the close of the term, and urged the payment of taxes when there would be no waiting and no crowding. Because they would not accept his advise, many impatient fellows are now compelled to wait an hour for the opportunity to "get square" on the books, in order to prevent the expense of advertising his property in the delinquent list.

NEWS OF CITY AND COUNTY CONDENSED

Mrs. J. T. Woods has gone to Rochelle, where she will visit Mesdames Fulksworth and Porter for a few days.

Mr. and Mrs. E. A. Twist of Bowling Green, Ky., who have been guests of Mrs. McIlvaine's boarding house for the past few weeks, departed for their home Monday. They were charmed with Gainesville and its people, and state that it is the cleanest city of its size, morally, they have ever visited.

M. J. Simmons of Alachua was transacting business in this city yesterday. Mr. Simmons owns a portable saw mill, and moves his mill to the timber instead of the timber to the mill. The plant has a cutting capacity of about 5,000 feet per day, and the owner has no trouble in disposing of his product at fair prices.

G. T. Erickson, for many years a resident of this city but now in business in Jacksonville, is greeting old friends here. He is a guest of the Brown House, where last night he was surrounded by a number of his old acquaintances, all of whom were glad at an opportunity to shake hands. Mr. Erickson is looking after some business matters here.

THE ELECTED OFFICERS.

Alachua Encampment No. 9, I. O. O. F., Holds Interesting Meeting.

J. G. Torrey, C. P.; N. E. Benson, S. W.; J. W. Blanding, H. P.; Robert McClellan, J. W.; A. M. Cushman, scribe; I. E. Webster, treasurer.

There was manifested a renewed interest in the encampment, and several actions were acted upon and elected to that degree. A special meeting will be held this evening at the lodge room over Dutton's bank for the conferring of the degrees. All Patriarchs are fraternally invited.

Mr. Morton Improving.

The friends of J. H. Morton, who had the misfortune to be severely injured by falling against a stairway at Eddins' mill a few days ago, and upon whom an important operation was performed, will be glad to learn that the patient is rapidly improving, and, notwithstanding that the nature of the wound was serious and the operation a most complicated one, requiring the opening of the stomach, the chances are excellent for his recovery.

Mr. Morton resides in the Baird cottage, and would be pleased to have his friends call as soon as he is in a position to entertain them, which will be only a short time.

Morhpine Ends Woman's Life.

Atlanta, March 28.—From an over dose of morphine Ethel Venable, a white woman who lived over a Decatur street store near Piedmont avenue died at the Grady hospital Sunday afternoon. The woman took the drug it is believed, with suicidal intent while at her home. When the hospital ambulance reached the puace she was unconscious. She had been treated at the hospital for morphine poisoning twice before.

The American Danger.

Berlin, March 28.—Private Counsellor Goldberger, author of "The Land of Unlimited Possibilities," is about to publish simultaneously in Berlin and Brussels a pamphlet entitled "The American Danger," which is a continuation and a supplement of his former books. He compares the economic forces of the United States and Germany from various stand points and although recognizing the resources technical equipment and capabilities of the United States, he concludes that "the American danger does not exist for Europe and especially not for Germany." Herr Boldberger contends that the commercial relations of the United States and Germany ought to be readjusted by a reciprocity treaty.

BEARING DOWN PAINS

3647 Indiana Avenue.
CHICAGO, ILL., Sept. 27, 1902.

I have been a sufferer with almost every kind of female trouble for years, but as long as I could get around and do my work I would not try patent medicines as I had no faith in them.

About eight months ago I had to take to my bed, suffering with prolapsus of the uterus, with bearing down pains and intense pains in the back. My aunt, who came to nurse me told me of Wine of Cardui and sent for a bottle. I am indeed glad that she did, for that first bottle started me on the road to recovery. In a few weeks I was out of bed and in three months I was in better health and stronger than I had been in years. I take a dose now, occasionally, of Wine of Cardui and am kept in perfect health.

TWENTIETH CENTURY CLUB.

Two Interesting Meetings of the Club Held Since Last Report.

Since the last published report of the meetings of the Twentieth Century Club two meetings have been held. The regular meeting of March 13 was postponed (on account of Chautauqua attractions) until March 20, when the club met at the home of Mrs W. B. Taylor.

After the regular routine of business an excellent program was introduced by Mrs. Lynch as leader, the subject being "Principal German Cities." The original papers and readings were much enjoyed.

At this meeting the club was presented with thirty-seven excellent volumes of fiction by Mrs. W. B. Goodwin, who has helped so materially in the advancement of the club work.

On Monday, March 27, the regular meeting of the Twentieth Century Club was held at the home of Mrs. W. N. Wilson. The meeting was called to order by the second vice-president, Mrs. Wilcox. The usual business was transacted, the most important and interesting being the report of the library committee, and regulations discussed regarding library. Mrs. Foster, chairman of the library committee, reported much success and cheerful donations. The committee have secured a room in the Law Exchange, and have it tastefully furnished—largely by donations. A selection of over 200 books of reference and fiction are now on the shelves.

After the business meeting was completed Mrs. Phillips, as leader, took charge, the subject for the day being "The Belgians of the Past." An interesting and instructive program, interspersed with musical selections, was carried out.

Meeting adjourned to meet April 10 at the home of Mrs. J. W. Tench.

The tent will be located on the lot one block east of the postoffice, on East Union street, corner University, and a cordial invitation is extended to the public.

The object of these studies is to present Jesus Christ and Him Crucified, to exalt the Holy Scriptures as Word of the Living God, and to save the unconverted. The promoters hope to be greeted by good congregations.

The tent will be well lighted and comfortable seats will be provided.

The meetings will be held in the evening, and will begin Friday.

The Colonel's Waterloo.

Col. John M. Fuller of Honey Grove, Texas, nearly met his Waterloo from liver and kidney trouble. In a recent letter he says: "I was nearly dead of these complaints, and although I tried my family doctor he did me no good; so I got a 50c bottle of your great Electric Bitters, which cured me. I consider them the best medicine on earth, and thank God who gave you the knowledge to make them." Sold and guaranteed to cure dyspepsia, biliousness and kidney disease by all druggists, at 50c a bottle.

OVERWORKED

SCHOOL CHILDREN IN GAINESVILLE

Will Be Interested in This Incident.

Miss Effa Gould of Coldwater, Mich., writes: "I was so tired, run down and extremely nervous that I was obliged to stay out of school, and the doctor thought I would have to give up entirely, but he advised me to try the new cod liver oil preparation, Vinol. I did so, and two bottles have made a wonderful improvement. I have resumed my school work and feel strong and well now. I have the greatest confidence in Vinol and feel like recommending it to every tired-out, overworked school girl or boy, as it did so much for me."

Our local druggist, W. M. Johnson, says: "There is no doubt Vinol is the best medicine in the world for growing school girls and boys. It is not a

EFFA GOULD.

patent medicine, but a delicious cod liver oil preparation, containing in a concentrated form all the strength-creating, body-building elements of cold liver oil, but without oil or grease, and it cannot upset weakened stomaches as do old-fashioned cod liver oil and emulsions.

"Vinol contains just the elements necessary to make for each child new vitality, sound flesh and muscle tissue, strong bone structure, rich, red blood, and create strength.

"We ask every mother in Gainesville to try Vinol for their children, on our guarantee to return the money if it fails. There is also nothing equal to Vinol to create strength for old people, or people who are run down, tired and debilitated. If you try it and don't like it we will give your money back." W. M. Johnson, Druggist.

Overdue Liner Reaches Port.

New York, March 28.—Three days behind her record time for the passage the Hamburg-American liner Patrician came in today from Hamburg with a story of extremely severe weather on the Atlantic. Constant westerly gales and had seas, varied only by periods marked an increase in the adverse conditions was, in brief the Patrician's experience as related by her officers. One life was lost, that of a seaman, who was blown it o the sea. There were three births on the trip. All the births were in the steerage.

Man Arrested for Incendiarism.

New York, March 28.—After a long investigation into the incendiary fires the police of Bayonne, N. J., have arrested James McInery, 22 years of age. The prisoner belongs to a volunteer fire company and it is alleged by the police that he admitted having started fires for the sake of fighting them. McInery has a record of 100 per cent for attendance at alarms, and for the frequency with which his fellow members reached the engine house in response to an alarm he was there with the horses hitched and ready.

Startling Mortality.

Statistics show startling mortality from appendicitis and peritonitis. To prevent and cure these awful diseases there is just one reliable remedy, Dr. King's New Life Pills. M. Flannery, 14 Custom House Place, Chicago, says: "They have no equal for constipation and biliousness." 25c at druggists.

COUNTERFEITERS ARRESTED.

Producing One Dollar Bills that Are Almost as Good as Genuine.

New Haven, Conn., March 28.—Two men supposed to be William Gober and Samuel Farlow, of New York were arrested today in a boarding house. In their rooms was found a new counterfeiting outfit which had turned out several spurious one dollar bills, the police assert, almost as good as genuine. The police believe that an entirely new counterfeiting method has been discovered, as the plan of turning out bogus bills is a departure from the engraved plate and other methods generally employed.

The plan apparently was to take a new bill of any denomination, pour a fluid said to be from Russia, over the bill, and then stamp the bill on plain sheets of specially prepared paper. After the pieces are pressed together for some time, the whole is taken off and placed on a cylinder much the same as a record is placed on a phonograph. This is followed by an electrical process that makes a perfect reproduction on the white paper and after a drying process that peels off apparently as good as the one from which the copy is made. The original bill is not spoiled and the process, it is alleged, can be repeated as many times as desired.

Cured Consumption.

Mrs. B. W. Evans, Charwater, Kan., writes: "My husband lay sick for three months. The doctors said he had quick consumption. We procured a bottle of Ballard's Horehound Syrup, and it cured him. That was six years ago and since then we have always kept a bottle in the house. We cannot do without it. For coughs and colds it has no equal." 25c, 50c and $1. Sold by W. M. Johnson.

BRIDE SHOT BY HUSBAND.

They Had Separated and He Wanted Her to Return.

Jasper, Ga., March 28.—A girl bride shot to death by her husband, the slayer in flight and a posse being organized to chase the fleeing man, is the tragic story that comes from Epworth, in Fanning county.

From reliable reports it is learned that young Glazier, of Epworth, killed his wife early Saturday night, and after the shooting fled to parts unknown.

Messengers arrived shortly thereafter at Blue Ridge, informed the sheriff of Fannin of the occurrence and at last accounts the sheriff was organizing a posse to assist him in the capture of the fugitive.

Mrs. Glazier, from accounts, had separated from her husband a short time ago, and had been living since at the home of her mother, some distance from her husband's home.

Saturday night Glazier went to the house where his wife was living and asked her to return and live with him again.

Invaluable for Rheumatism.

I have been suffering for the past few years with a severe attack of rheumatism and found that Ballard's Snow Liniment was the only thing that gave me satisfaction and tended to alleviate my pains. March 24th, 1902, John C. Degnan, Kinsman, Ill. 25c, 50c and $1. Sold by W. M. Johnson.

At last there is a hope of peace, with Russia to hear from.

A united effort will be made to have the Legislature do something handsome for the Deaf, Dumb and Blind Institute at St. Augustine. It is certainly a worthy institution.

The report that Secretary of State Hay will retire and that Judge Taft will be put in his place will be a move that will strengthen the Roosevelt administration. Taft will not develop the diplomacy that has been displayed by Hay, but will work with his leader to just as good advantage.

The report of State Chemist R. E. Rose for 1903-4 of the division of chemistry in the Agricultural Department, is received. It contains a favorable financial report of that division, reports on the inspection of fertilizers, advice on spraying fruits and the compounds used, besides a fund of other knowledge of interest to truckers and fruit growers.

The assertion that the Czar is in favor of peace does not seem to be borne out by the facts. There is no doubting that he is an ignoramus or he would not think for a moment that he is in any way connected with the Divine Ruler, and his belief is so strong that he will not listen to the advice of his ministers. The fact that men of education, equal to those who are next to the Czar, do not know that peace is the wisest thing for the country is sheer nonsense.

The Biblical Institute, which opens up in the tent at the corner of University and Union streets, Friday night, under the direction of the Seventh Day Adventists, will have some able speakers to advocate their cause. This sect is making wonderful progress in the Middle West and Western States, and is composed of many educated workers. They observe Saturday (the Sabbath), and aside from that they are noted for their uprightness toward their fellow men.

STOP THE GREEDINESS.

The men who are doing considerable talking in regard to having the game and fish laws amended might do well if they would organize clubs and have a clause inserted in their by-laws that would impose a fine on the members who go out hunting and try to kill all the game in the woods in a single day, or try to clean up all the fish to be found in the lakes and rivers at one time.

The game and fish would be found in sufficient quantities if those men who style themselves sportsmen from the North and West would not try to capture everything in a day. Some men will go out after game fish and see how greedy they can be, and then want their names in the paper, giving the number of pounds they caught in a day.

Stop trying to exterminate the game in a single day, limit the number of birds at any one time, and don't catch a hundred pounds of fish and throw half of them away, and there would be no necessity for a law to protect the game or fish.

If an effort is made to stop such greediness we will have plenty of game and fish.

Diplomacy is said to be the art and practice of conducting negotiations between countries, and as the United States has had little trouble with nations of the world since the inception of Mr. John Hay into office, he has won the distinction of being a diplomat. When the country united and went into action to resist the oppression of Spain towards Cuba and gave that country such a shock on very short notice, the world began to think that the United States was a power, and all nations looked on in amazement at the rapidity shown in arraying forces for war and hats began to be raised for Uncle Sam. Then the diplomats were set to work, and at such a time it did not need the greatest men to negotiate demands, for there was a feeling that the United States was not to be trifled with. At such a time a Hay man would not experience the trouble that might have come up several years previous, and this has been Mr. Hay's opportunity. With all due respect to his ability, the occasion was a good one and he accepted all the chances.

According to the tenor of the personal views of the members of the Texas Railroad Commission, expressed to different persons before the hearing on the subject of reducing freight rates on cotton, a majority of the members of that tribunal have fully made up their minds to order a reduction in the rates as proposed. If this is done the railroads would suffer a loss in revenue of approximately $900,000 per annum. It is estimated that the pending tax bills, the passage of which seems to be assured, will place an additional burden of not less than $600,000 per annum upon the railroads. This would be a total of $1,500,000 that would be taken from the railroads of the State each year.

The readers of this paper will be pleased to learn that there is at least one dreaded disease that science has been able to cure in all its stages, and that is catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials. Address:

UTHFUL PRISONER SHOWS GREAT SKILL

Imprisoned in Closet and Worked Way to Freedom.

ged to Have Stolen Sum of Money From Micanopy Merchants — Ran Away From Home, Taken Prisoner, Brought to Gainesville and Escaped.

One of the shrewdest escapes from imprisonment on record, taking all things into consideration, has been developed in Gainesville, and inasmuch as the prisoner was of such tender years it is all the more remarkable, and goes to show what this young man may grow up to when he becomes of age, and should ever occupy a prison—which, judging from the start is inevitable if he lives that long.

...ry Hall, colored, who was born ...icanopy ten years ago and has ... there ever since, is alleged to ... stolen from the cash drawer of ... ... Shuford then assumed the po... of the man and the bear—he had ...y, and could not release him. ... not desire to place him in the ...y jail, which would have been ... trouble and personal expense, ... secured permission to lock him ... closet in the store of H. His surprise may ...agined when he opened the door ... discovered that the urchin had unscrewed the lock and gained his freedom through the bowling alley next door, the closet having entrance from ...other room.

The joke was on Mr. Shuford, who ...oodnaturedly declared the "kid" ... the slickest proposition he had ... seen.

THE NEWS FROM MELROSE.

Delightful Social Functions—Departure of a Popular Family.

Melrose, March 27.—The first strawberries of the season were brought to town on Saturday and found ready buyers.

Rev. C. D. Frankel will hold morning and evening service at the Episcopal church on Sunday, April 2nd.

The Ladies' Aid Society will give a pie supper at the town hall on March 28th, at 5 p. m.

The social evening of the Ladies' Literary Society at their hall on Tuesday evening was one of the most enjoyable affairs of the series. Some forty-five members and friends sat down to an excellent supper at two long tables decorated with a profusion of bridal wreath and purple wistaria blossoms. After a short interval the Peak sisters were announced and a most entertaining performance began under the leadership of Miss V. Smith, the others being Mrs. J. A. Remmel, Mrs. J. B. McDonald, Mrs. H. von Noszky, Mrs. J. W. Johnson, Miss P. Darlington, Miss M. Smith and J. A. Remmel. All were so good in their various parts that it would be hard to single out who was best. Later on some very good charades were given and the prize winners of the highest number of correct guesses were Mrs. Darlington and Miss Schneller. Altogether it was a very pleasant affair.

On Thursday evening Mrs. Orr, Mrs. Treadwell and Mrs. H. W. Hamlyn entertained their friends at the Homeacre, progressive point euchre being the game played at the nine tables. The floral decorations were very pretty, being of roses, wistaria and other flowers. At the end of the games most delicious refreshments were served. The winners of the pretty prizes were Mrs. J. B. Liberty Street Repairs.

A force is now busy coating that section of Liberty street between West Main and Garden with flint rock. The street will be rolled with the steam roller, and when completed will make a most desirable block.

As is stated in another column, University street will also be rebuilt, the steam roller being used. This street was paved under direction of H. E. Benson, chairman of the street committee of the City Council about three years ago. Lime rock was used as a material, and the street has given good service, but with the aid of the steam roller the thoroughfare will be more thoroughly packed, hence will last a great deal longer.

Strikes Hidden Rocks.

When your ship of health strikes the hidden rocks of consumption, pneumonia, etc., you are lost if you do not get help from Dr. King's New Discovery for Consumption. J. W. McKinnon of Talladega Springs, Ala., writes: "I had been very ill with pneumonia, under the care of two doctors, but was getting no better when I began to take Dr. King's New Discovery. The first dose gave relief, and one bottle cured me." Sure cure for bronchitis, coughs and colds. Guaranteed, at all drug stores. Price, 50c and $1. Trial bottle free.

The sad information came by telegram to Mr. Jones, who left by first train. The funeral was held Tuesday, the interment being at Otter Creek cemetery. The Sun, with other friends, extends to the bereaved family deepest sympathy.

GOOD LUCK Baking Powder

make it the most widely chosen of all leavening agents. During this year 16,145,114 pounds have been sold (many orders coming in for car-load shipments), which is the largest business for a single factory in the world. This is only the inevitable result of the original Good Luck plan—to furnish the best baking powder in the world at the lowest price—10 cents a pound.

Good Luck is the best because it is purest, because it produces the lightest, whitest, sweetest of baking. These results are due to its unequaled leavening force, to the fact that it contains no adulteration whatever. It is the most economical because it takes less to do the work than any other baking powder. If your dealer doesn't sell Good Luck let us know, and we'll see that you are supplied at once.

Had a Derelict In Tow.

A naval officer one day noticed two sailors in earnest confab. One of them was imparting information to his companion of a very agreeable nature, judging from his beaming countenance. The officer in relating the incident says the manner of the speaker amused him very much. As he passed by the man raised his voice, with the unmistakable intention of being overheard, saying to his companion:

"I mean to give up this seafaring life when my time is out. I am going to marry a rich widow woman, the derelict of a butcher."

The Useful Shark.

The smiling shark may eat a man now and then—though scientists doubt it—but if he does man gets even. He makes jinned soup and jelly of the smiling shark's fins, extracts fine machinery oil from his liver, makes handsome leather of his skin, isinglass sticks from his backbone and many useful articles from his jawbone and teeth. Do you wonder that the shark takes a nip at a man's leg now and then?—Duluth News-Tribune.

MONEY MATTERS CAUSE DEATH.

Quarrel Over a Trivial Sum Resulted Fatally in Mississippi.

Sumner, Miss., March 28.—A quarrel over a trivial sum of money has resulted in the killing of J. Bailey Webb, a prominent young planter, and the wounding of Sam Dougherty, Sr., a saw mill hand, at Bessie, a small town 7 miles from Sumner. The dispute arose between Dougherty's son, Sam, aged 26, and young Webb.

Dougherty, Sr., appeared on the scene as the altercation was threatening violence, and, it is said, seized Webb from behind, and, reaching over the planter's shoulder, plunged the knife repeatedly into his body.

Webb fell, dying, but managed to draw a pistol from his pocket and fire twice at his assailant. The elder Dougherty's wrist was broken and a bullet also struck his abdomen, but glanced off. He was afterward arrested and placed in jail. The younger Dougherty, who, it is alleged, also attacked Webb with a knife, escaped.

House Work

Need Not Wear Her Out

The drudgery of house work seems never ending to tired-out, dispirited women who suffer from female complaints or irregularities. Inflammation and ulceration of the womb and ovaries cause fearful bearing down pains which are aggravated by much standing on the feet, and lifting necessary in house work.

But let no woman despair of relief from this torture. That famous tonic reconstructor of diseased or disordered female organism,

Lydia E. Pinkham's Vegetable Compound

has cured more than one million American Women, and it will cure you. When monthly periods are painful or irregular, when backaches and headaches drive out all ambition, Lydia E. Pinkham's Vegetable Compound will bring back health, strength, and happiness.

It Gave Me New Life and Vigor

DEAR MRS. PINKHAM:—Last spring, while we were moving, I did considerable more work than my strength permitted, and, having mental trouble at the same time, my health broke down completely and I found myself unable to rest or eat. My nervous system became shattered and I was pale and emaciated and had to take to my bed.

My sister advised me to try Lydia E. Pinkham's Vegetable Compound, and, although I had no faith in patent medicines, I was so miserable that I would take anything for relief. I found that it made a complete change for the better, inducing appetite and restful sleep and imparting new life and vigor to my entire system.

I gained nearly fourteen pounds, my complexion looked fresh and clear, and my best friends were surprised and pleased at the change and could hardly credit the fact that Lydia E. Pinkham's Vegetable Compound had accomplished it.

Uprising on Isle of Crete.

Canea, Isle of Crete, March 28.—A revolutionary band of 600, demanding Greek rule and which has been active for some days, fired on gendarmes, seriously wounding two of them. Prince George, in a proclamation issued today, urged the people not to encourage the revolutionary movement which at present apears to be confined to Canea.

Will Reorganize Panama Republic.

Guayaquil, Ecuador, March 28.—Vice President Baquerizo Morena has assumed the executive power, President Plaza retiring to the town of Pomasqui for 90 days on account of the delicate state of his health. It is believed that the vice president will recognize the Republic of Panama.

Women find quick relief in Dr. Thacher's Liver and Blood Syrup.

ANOTHER WONDER OF SCIENCE.

Biology has Proved that Dandruff is Caused by a Germ.

Science is donig wonders these days in medicine as well as in mechanics. Since Adam lived, the human race has been troubled with dandruff, for which no hair preparation has heretofore proved a successful cure until Newbro's Herpicide was put on the market. It is a scientific preparation that kills the germ that makes dandruff or scurf by digging into the scalp to get at the root of the hair, where it saps the vitality; causing itching scalp, falling hair, and finally baldness. Without dandruff hair must grow luxuriantly. It is the only destroyer of dandruff. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

Lexington, Tenn., June 5, 1901.

This is to certify that, about March last I suffered intensely with my back and kidneys. Just prior to this I had undergone treatment for bladder trouble and was relieved, except the treatment was followed by the above trouble. It was recommended that I try "Texas Wonder, Hall's Great Discovery." I took one dose on retiring at night, and to my agreeable astonishment, I found myself relieved. One dose did the work. There is no bosh about this. It is wonderful.

Respectfully,
C. R. Scott,
Proprietor Scott House, formerly county chief clerk, postmaster, etc.

A TEXAS WONDER.

One small bottle of the Texas Wonder, Hall's Great Discovery, cures all kidney and bladder troubles, removes gravel, cures diabetes, seminal emissions, weak and lame backs, rheumatism and all irregularities of the kidneys and bladder in both men and women, regulates bladder troubles in children. If not sold by your druggist, will be sent by mail on receipt of $1. One small bottle is two months' treatment and seldom fails to perfect a cure. Dr. Ernest W. Hall, sole manufacturer, P. O. box 629, St. Louis, Mo. Send for testimonials. Sold by all druggists.
